RC8T DEBUTS AT MANUFACTURER'S CUP

Coeur d'Alene, ID – The highly anticipated “big brother” of the RC8, the **Factory Team RC8T** will hit the track for the first time in competition at the Manufacturer's Cup in Coeur d'Alene, ID. Event tickets have already sold out for this large purse event, and with spectators filling the stands at the Kootenai County Fairgrounds it is sure to be an event to remember.

Piloted by reigning ROAR National Champion, **Ryan Maifield**, runner-up **Ryan Cavalieri**, and “The King” **Richard Saxton**, the RC8T represents the evolution of the RC8 buggy and refinements collected from gallons of testing. Follow the team's progress through AssociatedLive.com with daily updates, photos and video from the event.

Scheduled for an August release, the RC8T promises to be a contender right out of the box. See your local hobby shop for pre-order options.

Factory Drivers Ryan Maifield and Ryan Cavalieri Race-Prepped RC8Ts
