

*For Immediate Release
January 4, 2008*

Since its inception, Tamiya's TCS Championship Series has maintained its position as the premier series for Tamiya enthusiasts. Reedy is proud to announce that the all new 3200mAh and 5000mAh LiPo battery packs have been declared legal for use in TCS Series competition.

Reedy Manager Rick Hohwart had the following to say regarding the news:
"We are very happy to be included in this prestigious series and would like to wish all TCS competitors the best of luck in 2008."

Reedy LiPo batteries offer many advantages over traditional NiMH batteries:

- Exclusive case design helps protect the battery from damage while allowing easy installation in touring car and off-road chassis
- Up to 30% longer runtime than NiMH batteries of equal capacity
- Lighter than NiMH batteries of equal capacity
- No limit to the number of consecutive uses
- Improved cell efficiency results in less energy lost as heat and greater power output
- Battery can be charged well in advance of use with no loss in performance
- Reduced maintenance
- Longer lifespan (up to 10 times!) reduces battery costs
- Balancing connector included - no complicated wiring required!
