RC8 Internal Snap Rings

Team Associated's RC8 Internal Snap Rings are perfect for bullet-proofing the shocks on your RC8! The RC8 Internal Snap Rings replace the stock G-ring shock retainers and provide an extra level of security and longevity for your RC8's shocks.

#89056 RC8 Internal Snap Rings

RC8 Wheels

An excellent value for 1/8 scale enthusiasts, Team Associated's lightweight, super-strong anti-wobble wheels stay true and resist bending under the toughest conditions.

Features:

- Each wheel is only 34 grams. Minimum rotating weight equals maximum punch!
- 4.2mm deep-set hex helps prevent the wheel from stripping and ruining your tires.
- Tough internal webbing with central strengthening rib helps prevent the wheel from warping or distorting.
- Half-depth vent holes allow a choice of venting options.
- Complete set of 4 wheels per package.

Designed to the industry standard, these wheels will fit any 1/8 scale buggy that uses a 17mm hex hub. (Losi 8ight, Jammin' X1-CR, Kyosho Inferno MP777, Mugen MBX5, Ofna Hyper 8, Xray XB8, Hot Bodies Lightning, and Thunder Tiger EB4 S3.)
