

New Products for Immediate Release: October 30, 2009

All New Vector X-12 Stock-Spec Motors!

LRP's revolutionary Vector X-12 brushless motors have set new benchmarks in electric motor performance and have quickly become the motor to beat for high-level racing competition!

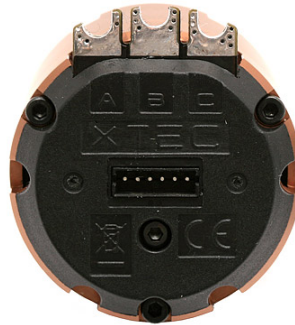

Now the same level of performance and technology has been created for SPEC class racing. Spec class drivers can now take advantage of the World Championship-winning XTEC X-12 technology. With the all-new Vector X-12 Stock-Spec motors, even more performance is at your disposal.

Together with the improved throttle response, higher efficiency, and better controllability, these new motors are a clear advancement that promises to bring more fun and performance to your radio-controlled car or truck.

Vector X-12 Stock-Spec Features:

- Black-coated shaft and magnet
- Laser-engraved turn indication on can
- Sealed winding
- High-strength 12.5mm Sintered rotor
- Rebuildable
- Easy-solder tabs
