

New Products. For Immediate Release: 12/17/2008

Team Associated Pro Comp SC8

Designed to look just like the full-size Pro Comp, 4WD race truck that runs in short course off-road series around the west coast, Team Associated is proud to announce the Travis Coyne, Pro Comp SC8 as the latest edition to our line of 1:8 scale, nitro 4WD, authentic race truck replicas!

Based on the championship-winning RC8T truggy platform, the SC8 was designed to meet the scale specifications of the full-size short course race truck. It's all there, from the scale suspension travel, to the roll-cage tube diameter, to the functional mud flaps.

Fully assembled and ready to go, underneath the beautifully finished body, roll cage and wheels beats the heart of a RC8T. Team Associated's Pro.28 engine and XP3D Computerized Digital FM Radio system are factory installed. The differentials and shocks come filled with the proper silicone fluids, making it faster and easier than ever to get Team Associated SC8 performance out of the box and into the dirt!

Team Associated is the winningest name in R/C cars, having won 23 world championship titles. When we created the SC8, we knew we had made something very special and we think that you will agree that the Pro Comp SC8 is yet another champion by design.

Powerful Pro.28 engine

Pro-Start hand-held starting system

XP3D Computerized Digital 3-Channel FM Radio System
